

Dr. Franziska Horn

hey@franziskahorn.de | [linkedin/franziska-horn](https://www.linkedin.com/in/franziska-horn) | [github/cod3licious](https://github.com/cod3licious) | franziskahorn.de

A **technical leader** with a strong **product mindset** and a background in **data science** and **software engineering** with 11+ years of experience building data products in both research and application contexts.

SKILLS

Leadership

I'm a "get sh*t done (well)" person, who motivates empowered teams through a strong vision and clear priorities while striving for operational excellence in an agile environment.

- doing the right things: defined team vision, strategies, and goals in alignment with company-wide objectives
- mentored junior team members and students and conducted 1:1 data science coaching sessions for domain experts as a freelancer
- stakeholder management: coordinated with external customers and aligned with the customer success, sales, and product teams
- project management: refined and prioritized the product backlog together with developers and facilitated sprint planning meetings while ensuring the tasks present growth opportunities for individuals, and removed impediments for the team
- process management: designed, analyzed, optimized, and documented processes, incl. automation of many steps, e.g., to improve the customer onboarding at alcemy (reduced lead time from 50 to 25 days)
- capacity planning and hiring of new team members (incl. writing job descriptions, devising take home tasks, conducting technical and team fit interviews, onboarding), building up the ML team at Spectrm and the solutions engineering team at alcemy
- promoted a culture of psychological safety by acknowledging my own shortcomings and encouraging experimentation & learning
- facilitated workshops and architectural decision making processes across multiple teams
- gave constructive feedback and conducted performance reviews while refining the team's progression framework
- doing things right: set and ensured quality standards, e.g., through code reviews with an eye for details

Certificates: Professional Scrum Master 1 (Scrum.org)

Data Science

A "data detective" who enjoys learning about new domains, particularly natural sciences and engineering, by diving deep into data and sharing insights through effective visualizations.

- PhD in Machine Learning; worked with both structured data (incl. time series) and unstructured data (text documents & images) and developed novel algorithms and neural network architectures
- designed and implemented data products, incl. requirements gathering and identification of user needs, exploratory data analysis, building and evaluating predictive models, and creating insightful data visualizations, e.g., to analyze chemical process data at BASF and alcemy

Tools: Python (incl. Jupyter, streamlit, pandas, sklearn, pytorch, numpy, scipy, plotly, matplotlib, seaborn, dash), Grafana, MatLab, R

Software Engineering

Passion for clean code, crafting software architectures with optimal complexity, and refactoring existing code as needed.

- designed and implemented various web apps from scratch (e.g., data tools at alcemy, prototypes for freelance clients, and personal projects)
- authored open source Python libraries, e.g., [autofeat](#) for automated feature engineering with 400+ stars on GitHub
- planned and executed a series of targeted refactorings to minimize code required to implement the data ingest for new customers at alcemy
- worked on a shared codebase at alcemy, incl. contributing to production code and reviewing merge requests

Tools: Python (incl. poetry, black, ruff, FastAPI, SQLAlchemy, Jinja, Flask), SQL (mainly PostgreSQL, SQLite), git (GitLab & GitHub, incl. CI/CD pipelines), bash, AWS (incl. S3, SQS, CloudWatch), Argo Workflows, Sentry, Terraform, Docker, Kubernetes

Communication

Proficient in professional writing and public speaking, enthusiastic about structuring information, clarifying complex concepts with diagrams, and meticulous editing.

- written a free online book "A Practitioner's Guide to Machine Learning"
- taught 45+ machine learning courses to various audiences, ranging from department heads to aspiring data scientists
- authored several scientific papers published in journals and presented at conferences
- gave a [talk](#) at the PyData conference 2019 in Berlin in front of over 100 people

Tools: \LaTeX , AsciiDoc(tor), HTML/CSS, Affinity Designer

Languages: German (native), English (fluent), French (basics), Spanish (basics)

WORK EXPERIENCE

Freelance Data Product Consultant | LEIPZIG (GERMANY) / REMOTE 10/2018 - present

- 1:1 coaching sessions and multi-day workshops on how to use machine learning techniques in practice
- design, implementation, and evaluation of data science solutions tailored to my client's needs
- web development with a focus on data-powered web apps (using Python, incl. FastAPI & streamlit)
- clients include BASF and TRUMPF

Head of Solutions Engineering | ALCEMY, BERLIN (REMOTE) 10/2022 - 11/2023

- fighting climate change, one cement and concrete plant at a time!
- hired and led a team of 3 data scientists and engineers, responsible for customer integration and resolving data-related customer requests
- created team vision & strategies and prioritized projects & objectives together with the customer success, product, and sales teams
- streamlined internal processes, e.g., halved onboarding time for new cement customers, minimized required code files per customer to 6 from 17
- built data products empowering the customer success team to conduct recurring customer data analyses independently

Senior Customer-Facing Data Scientist | ALCEMY, BERLIN (REMOTE) 02/2022 - 10/2022

- analyzed laboratory data from our customers (cement plants), e.g., to identify irregularities in their production processes
- reduced time spent on recurring analyses by implementing configurable, reusable report templates
- simplified integration of new customers into our cement product by planning and implementing refactorings of core product components

Visiting Scientist | ML GROUP, TU (TECHNICAL UNIVERSITY) BERLIN 05/2020 - 11/2020

- developed continuously evolving word embeddings that account for meaning changes over time (published at ACL 2021)
- collaboration with Prof. Dr. Alan Akbik from the Humboldt University of Berlin

Data Science Consultant | BASF, LUDWIGSHAFEN 03/2018 - 10/2018

- most experienced Python developer in the team, responsible for code reviews
- implemented machine learning algorithms, e.g., the autofeat library for automated feature engineering and selection, and analyzed complex datasets to optimize processes in chemical plants

Research Assistant | ML GROUP, TU BERLIN 09/2017 - 02/2018

- predictive maintenance / time series analysis project in collaboration with BASF (worked on-site in Ludwigshafen)
- designed, implemented, and evaluated linear and non-linear regression models in Python to predict the degradation of catalysts in chemical plants

Machine Learning Scientist | SPECTRM, BERLIN 07/2016 - 06/2017

- established the machine learning team, incl. hiring two ML engineers
- implemented a content recommendation API for newspaper articles to promote our clients' content (Python Flask App)
- developed a chatbot "AI" to respond to user messages automatically (using RiveScript)

Data Scientist | IDALAB, BERLIN 02/2014 - 06/2016

- advanced analytics consulting projects, ML algorithm development in Python, presentation of results, and project management
- clients included razorfish (NLP backend for automatic content classification) and outfittery (style prediction algorithms for curated shopping)

Student Research Assistant | ML GROUP, TU BERLIN 09/2013 - 09/2014

- focus on text classification, unsupervised learning (word2vec embeddings, dimensionality reduction), and information extraction
- short-term research stay at UCLA; collaboration with Prof. Dr. Alcino Silva

Student Research Assistant | BBCI LAB, TU BERLIN 08/2012 - 08/2013

- EEG data analysis at the Berlin Brain-Computer Interface Lab; developed and efficiently implemented new algorithms in MatLab
- three peer-reviewed publications (journal and conferences)

Research Intern | MIT (MASSACHUSETTS INSTITUTE OF TECHNOLOGY), CAMBRIDGE, MA 07/2011 - 10/2011

- at the McGovern Institute for Brain Research / Gabrieli Lab
- analyzed fMRI data using Python with results published in JAMA Psychiatry
- sponsored by a DAAD RISE scholarship

Student Research Assistant | FRAUNHOFER INSTITUTE FOR CHEMICAL TECHNOLOGY, PFINZTAL 07/2007 - 12/2009

- worked independently, responsible for collection of infrared spectroscopy data

EDUCATION

Ph.D. (Dr. rer. nat.) Computer Science | TU (TECHNICAL UNIVERSITY) BERLIN

04/2015 - 04/2020

- in the machine learning group of Prof. Dr. Klaus-Robert Müller
- thesis: SIMILARITY ENCODER - A NEURAL NETWORK ARCHITECTURE FOR LEARNING SIMILARITY PRESERVING EMBEDDINGS:
developed a novel NN architecture to map high dimensional data into a low dimensional embedding space, where arbitrary pairwise relations between the data points are preserved as the embedding vectors factorize a given target similarity matrix; potential application areas include recommender systems, especially to target the cold start problem, i.e., generate recommendations for items without previous user ratings, and natural language processing, by extending the word2vec algorithm to produce embeddings for out-of-vocabulary words and words with multiple meanings
- supervised bachelor and master students
- funded by the Elsa Neumann scholarship from the universities of Berlin
- graduated magna cum laude

M.Sc. Computer Science | TU BERLIN

04/2013 - 03/2015

- focus: intelligent systems (machine learning, big data & Hadoop, neurobiology)
- thesis: KNOWLEDGE EXTRACTION FROM COMPLEX BIOLOGICAL TEXTS: A MACHINE LEARNING APPROACH
(supervisor: Prof. Dr. Klaus-Robert Müller, TU Berlin)
- graduated top of my class (1.0 on a scale from 1 (best) to 5)

(M.Sc. Computational Neuroscience) | BCCN / TU BERLIN

10/2012 - 03/2013

- interdisciplinary & strongly research oriented international master program with a highly competitive application process (10 places/year)
- switched to computer science after 1 semester to deepen my technical knowledge and get a wider choice of application areas

B.Sc. Cognitive Science | UNIVERSITY OSNABRÜCK

10/2009 - 09/2012

- interdisciplinary study program including courses in neurobiology, computer science, psychology, artificial intelligence, mathematics, computational linguistics, neuroinformatics, and philosophy; taught in English
- thesis: COMPARING AND COMBINING MULTIPLE EEG FEATURES IN MOTOR IMAGERY BCI - A LARGE SCALE STUDY
(supervisor: Prof. Dr. Benjamin Blankertz, BBCI Lab at TU Berlin)
- graduated with distinction (1.1 on a scale from 1 (best) to 5)

Abitur (secondary school) | FICHTE-GYMNASIUM KARLSRUHE

09/2000 - 06/2009

- 11th grade as a year abroad in Missouri (USA)

PUBLICATIONS

Exploring Word Usage Change with Continuously Evolving Embeddings

Franziska Horn

In *Proceedings of the 59th Annual Meeting of the Association for Computational Linguistics and the 11th International Joint Conference on Natural Language Processing: System Demonstrations*, pages 290–297, Online, August 2021. Association for Computational Linguistics (ACL).

Forecasting Industrial Aging Processes with Machine Learning Methods
